

COMPANY OVERVIEW

Who

We are innovators, futurists and problem-solvers who care about the world we live in.

Why

We believe when devices meaningfully communicate, we bring enjoyment, safety and improve the lives of friends, families and communities across the globe.

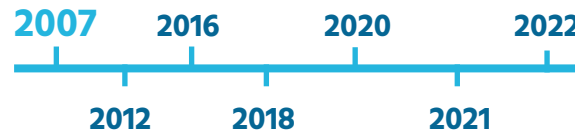

What

We help our customers to bring their connected devices into the market with confidence.

How

We develop highly integrated strategies, while providing industry-leading software and hardware solutions to customers who are building connected devices.

Timeline

MMB has been leading the industry forward since 2008.

Over 14 years of experience building connected solutions across the entire connectivity landscape.
